

What I Need Exactly From Your Website

Requirements document — Smart Online Service

Reference site: thecorporatchai.in | Prepared 1 September 2026

Below is a section-by-section list of what I want carried over from your website, what should change, and what content I will supply myself. Each screenshot is followed by the notes for that section. Where a section says **same**, I mean the same layout, design and behaviour — the wording and content should carry my brand and my own details.

1. Entry popup on page load

Screenshot 1 — popup shown immediately when the site opens.

Keep this popup exactly as it is —

2. “From rejected to recruiter-ready” section

Screenshot 2 — before/after score cards and the three service cards below them.

Keep the before/after cards exactly as they are

Below it, keep the service cards in the same style, with these changes:

- **Remove** the ATS Report card entirely.
- **Resume Rewrite** — price ₹349.per page
- **Build from Scratch** — price ₹3999 instead of ₹250. Per page
- Keep the “Most popular” badge on Resume Rewrite, and keep the strike-through original price and the percentage-off tag on each card.

3. Homepage reviews carousel

Screenshot 3 — auto-scrolling review cards on the homepage.

Keep the carousel exactly as it is — same card design, same star rating, same avatar circle, same auto-scroll, same “See all reviews” link. You can change name.

4. Coming Soon section

Screenshot 4 — three Coming Soon cards.

Same three-card layout, same circular icon, same “Coming Soon” pill and “Notify me” link. Card contents:

- **Card 1 — Corporate Connect:** keep exactly as it is.
- **Card 2 —** replace “LinkedIn Profile Score Checker” with **ATS Resume Checker**.
- **Card 3 —** replace “In-House ATS & Resume Filter” with **Mock Interview**.
- Write fresh descriptions for cards 2 and 3 to match the new names.

5. Closing call-to-action and feedback band

Screenshot 5 — gold WhatsApp band and the feedback row below it.

Keep both sections exactly as they are —

6. Footer

Screenshot 6 — footer with founder card, social icons and policy links.

Same footer layout throughout — logo at top, tagline, founder card, social icon row, policy links, and the copyright line at the bottom.

- **Founder name:** Abhay Rawani.
- Founder designation, photo, LinkedIn URL and website link will be sent by me — please do not carry over the existing designation or credentials.
- Social icons: I will send my own WhatsApp, Instagram, YouTube, LinkedIn, X, Facebook and email links.

7. Resume samples and templates page

Screenshot 7 — templates page with the badge on each preview.

No changes to the layout at all. Same heading, same option buttons above the grid, same badge on each template card, same grid.

- Include all 62 templates.
- Watermark every template preview image with Smart Online Service.

8. Reviews page

Screenshot 8 — reviews page with ticker strip, founder card and review grid.

Same page structure with no design changes —

- Client photos will be supplied by me.

- Founder card: my name, my photo, my details.
- Ticker strip claims and the Google rating figure should reflect my actual numbers — I will confirm them.
- Feedback form: same as yours

9. Community page

Screenshot 9 — community page with the WhatsApp join card.

Same page, same layout, same structure. I will send my own WhatsApp channel link to put in the join button. The community name and any member figures should be mine and should reflect my actual numbers.

10. Support and grievance page

Same page as it is — the dark header, the two-card layout for general support and privacy grievance, the same buttons. Replace the brand name, the WhatsApp number and both email addresses with mine.

11. Services page — full pricing rework

Screenshot 11 — current service cards. Card design stays; the services and prices change.

This is the section with the most changes. Keep the card design exactly as it is — the SERVICE 00 / 01 / 02 numbering style, the tick-mark feature list, the strike-through price with the percentage-off tag, the small grey note under the price, and the black “Get this” button.

Remove these two cards completely: ATS Resume Report (₹19) and 5 ATS Resume Templates (₹49).

Service	Price	Notes
Existing Resume Modify	₹299 per page	Update and polish an existing resume
ATS Resume Rewrite	₹349 per page	Show as 50% off from ₹699. This is the main service — keep it highlighted
LinkedIn Optimisation	₹499	Needs its own dedicated section on the page, not just a card in the grid
Naukri Optimisation	₹499	Separate dedicated section of its own, kept apart from LinkedIn
Indeed Optimisation	₹299	Standard card
Resume + LinkedIn	₹799	Combo card
Resume + Naukri	₹799	Combo card
Complete Career Boost	₹1,299	ATS Resume + LinkedIn + Naukri + Indeed + Cover Letter. Make this the flagship card with the strongest visual treatment

Discount percentages on every card can be set by you — just make sure the strike-through original price and the final price are consistent with the numbers above.

Points to confirm before you start

- **File ownership.** I want the complete source folder — HTML, CSS, JavaScript, images and assets — so I can host and edit it myself.
- **Editing prices later.** I change prices often. Please keep all prices, service names and review content in one settings file that I can edit myself without touching the code.
- **Delivery time and revisions.** Please confirm the timeline and how many revisions are included in the agreed amount.
- . I will buy my own domain . Please deliver the files ready to upload.

Smart Online Service · Requirements as discussed · Any change to the scope above to be agreed in writing before work starts.
